

15th Annual

Diabetes, Obesity, and Cardiovascular Disease Virtual Summit

September 9-11, 2021 | Live Stream

Why Register?

- Engage in these **important topic areas**
 - Obesity awareness, stigma and advocacy
 - One diet that fits all, body positivity, obesity intervention in primary care, diet and exercise counseling
 - “Covibesity,” the interaction between two pandemics
 - Pharmacotherapy for obesity, cardiovascular disease and diabetes
 - Obesity and diabetes management, from both the surgical and medical treatment perspectives
 - Link between obesity and comorbidities
- Learn firsthand about the **personal weight loss journeys** of patients
- Participate in **innovative workshops**, including telehealth best practices, weight loss maintenance, pediatric obesity, sleep disorders, and more!
- Expand and enhance decision-making skills in **highly complex clinical situations** through case discussion
- Watch surgeries and learn **safety and efficacy data for bariatric surgical options**, especially long-term outcomes and the potential impact of metabolic surgery on kidney function
- Learn the **newest in basic science research**, including findings on the brain-obesity links, impact of exercise on adipose tissue, and how obesogens may drive obesity
- Earn **American Board of Internal Medicine** Maintenance of Certification Points or **American Board of Surgery** Maintenance of Certification Points
- Access **live stream recordings** on-demand, post course as part of your registration fee
